

Welcome Back!

We're glad to see you! As always, your health and safety are very important to us so we've put in place a few new policies for everyone's protection.

- Until further notice, we will be working by **appointment only**. We will resume Walk-in service as soon as it is prudent.
- We ask that you **wait in your car or elsewhere until your appointment** time.
- Please **arrive for your appointment on time** and with the consideration for the time needed to conduct sterilization of the barbers' work area.
- Due to new parking regulations on Gay St. **please allow extra time for your arrival**.
- **Our waiting area is closed** and only clients with an appointment will be allowed into the shop. Please do not bring guests or children with you unless they are scheduled for service as well.
- **Please observe social distancing at ALL times.**
- **Masks MUST be worn at all times.** If you do not have a mask, they are available for purchase.
- **Temperatures** will be **taken prior to your appointment**. If your temperature is deemed too high, or your barber feels you are sick, we will have to reschedule your appointment.
- You will also be **asked simple questions to determine whether your health and contact with others presents a risk.**
- Until we receive further direction, **we will be unable to service beards** as masks must be worn at all times.
- To reduce traffic through the shop, **the restroom is for urgent use only.**
- Please **provide 24 hours notice if canceling** your appointment.

We realize that these policies could be restrictive, but we are following both CDC guidelines and good health practices to keep everyone safe and healthy. It is of the UTMOST importance to us to keep you and your family as well as our Cruisin' Style family from any risk of infection.

Please know that we always provide clean and safe services, but due to COVID-19, we made a number of changes and improvements to further ensure your safety:

- Each station is thoroughly sterilized for each client.
- Hand sanitizer is available upon entry and around the shop.
- Plastic barriers have been installed between stations and at check out.
- Enhanced staff safety education and certification.
- Freshly laundered capes for each client.
- Deeper after-hours cleaning and additional nighttime sanitization.

- Touchless thermometer used on all staff and clients upon entry.

We are doing everything in our power to keep everyone safe and healthy. Thank you!

ATTENTION New Shop Regulations:

MUST WEAR MASK AT ALL TIMES!

No walk-ins at this time. Appointments only!

- Have you had any symptoms, such as fever, cough, etc. in the last 14 days?
- Have you had contact with anyone with COVID-19?
- Have you traveled outside the state or country in the last 14 days?

If so, please reschedule your appointment. We are sorry for any inconvenience.
